JOB PRINTING,

Such as *Labels, Cards, Tickets, Programmes, Handbills, Posters, Blanks, Pamphlets, &c.*, Done at this office neatly and expeditiously, our terms adapted to the times.

MASSILLON BUSINESS CARDS.

BANKS.

Union National Bank,

MASSILLON, O.

THOS. M'CULLOUGH, President. WM. M'CLYMONDS, Cashier.

First National Bank,

Erie street, Massillon, O. $200,000 Capital. I. STEESE, *Pres.*; S. HUNT, *Cash.*

ATTORNEYS.

F. L. BALDWIN, Attorney-at-Law, *Massillon, Ohio.*—Office in Opera Block. Collections promptly made, and all business carefully attended to.

JAMES HARSH, Attorney-at-Law, Massillon, O. Office in G. Harsh's Block, second story. Prompt attention given to business entrusted to his care.

R. H. FOLGER, Attorney at-Law, Massillon. O. Office over Reed's store.

ANSON PEASE, Attorney and Counsellor at Law. Office over First National Bank on Erie street.

PHYSICIANS.

Dr. H. GEROULD, Opera House, Erie st, Residence at Mrs Schnickers', second door east of Harsh's umbrella store. Main street, Massillon, O. Reference, Prof. H. R. Storer, Boston, Mass.

A. METZ, M.D.—Office and residence on North street, Massillon, O. Office hours 7½ to 9 a.m., 1 to 2 and 6 to 7½ p.m. To secure prompt attention orders for morning visits must be sent in by 9 o'clock, and for afternoon visits by 2 o'clock.

T. J. REED, M.D. Office corner of Main and Hill streets. Office hours 7 to 9 o'clock a.m.; 12 to 2, and 6 to 8 o'clock p.m.

A. R. SOWERS, Physician and Surgeon, Canal Fulton, O.

D. R. LYON, M. D Office and residence on North st, between Mill and Hill streets, Massillon, O.

Dr. A. HOUTZ, Physician and Surgeon, Canal Fulton.

Dr. A. W. RIDENOUR, Canal Fulton, Ohio. Office and residence Canal street, above the postoffice. 339-ly

DRUGGISTS.

JOSEPH WATSON, Druggist, Main street, keeps constantly on hand Oils, Paints, Varnish, Glass, Dyes, Medicines, Brushes and Wall and Window Papers, &c.

EDWARD KACHLER, Druggist and Bookseller, Main street, dealer in Books, Drugs & Medicines, Oils, Paints, Varnish, Glass, Perfumery, Patent Medicines, School Books, Wall and Window Papers, Inks, Stationery

DENTISTS.

Dr. Porter, DENTIST.

Office opposite American house, Massillon.

Special attention given to treating and filling diseased Teeth.

E. CHIDESTER, Dentist Office over Humberger & Son's store, Main street All operations in dentistry warranted, and terms as low as those of any other dentist in Stark or Wayne county. Gutta percha or hard rubber work done in the best style with Hayes' celebrated *High Pressure Vulcanizer.*

A. H. JOHNSTON, Surgeon Dentist. Office over Conrad's hardware store, Main street. Work warranted second to none in Ohio for beauty, comfort and durability—from one to an entire set, on gold, silver, platina or vulcanite base. Charges moderate.

GROCERIES.

H K. DICKEY & CO., Wholesale Groceis & Tobacco Dealers. Sell to the trade only. Exchange Place, Massillon.

H. MORGANTHALER, Jr., & R. BREED, Groceries and Provisions—successors to D. R. Atwater & Co., Main street.

MISCELLANEOUS.

LUMBER
MANUFACTURED TO ORDER,
—Oak, Beech, Maple, Walnut, Elm—
Also Fire Wood always on hand, delivered to all parts of the city.

Pasturage at reasonable rates for 100 head of horses or cattle.

Leave your orders at my office, Massillon Excelsior Works.-313 JAS. BAYLISS.

Lumber Yard.—M. A. BROWN is prepared to fill bills at *Cleveland prices*, freight added, on short notice. Full stock of Pine Timber and Lumber, Flooring, Siding, Ceiling, Barn Boards, Battens, Shingles and Lath, in short every thing in the lumber line. Opposite Massillon depot.

D. R. ATWATER & CO., Forwarding and commission Merchants, and Dealers in all kinds of country Produce Warehouse in Atwater block, Exchange place.

W. E. RICKS & BRO., Dry Goods Merchants, Massillon, O.

MYERS & WILLISON, Manufacturers of Hubs, Spokes, and Bent Material for Wagons and Carriages. Planing and Matching done to order. North end Erie street.

MASSILLON FURNACE—J. P. Burton, Proprietor.—Manufacturer of Foundery Pig Metal, similar in quality and equal in every particular to Scotch Pig. Also, Massillon Coal for sale.

H. FALKE,

Wholesale and Retail Dealer in Dress Silks, Millinery, Embroideries, Bonnets, Cloaks, Shawls, Gloves, Lady's Fancy Goods, Hosiery, &c., Main street, 3 doors above Mill, Massillon, Ohio.

EDWIN JARVIS, Justice of the Peace, Notary Public, and Conveyancer; also, Canal Collector, Massillon, O. Office—At water's Block, over Morganthaler & Breed's grocery store, next to the canal. 365

MASSILLON IRON FOUNDRY.
Killinger & CO.,

MANUFACTURERS OF PARLOR, HEATING AND COOKING STOVES.

Plows, Points, Car Wheels, Bells, and Castings Generally.

STATIONARY AND PORTABLE STEAM ENGINES, AND CIRCULAR SAW MILLS.

Prompt attention given to repairing Mills, Engines, and Machinery of all kinds.

IRON BUILDING MATERIAL,

Columns, Caps, Sills, &c, furnished to order

Office and Foundry, Main st., West of Canal 245-1y

TRADE MARK

THE Earth *Closet* Company.

JOHN HOSKIN, General Agent for Ohio, Western Pennsylvania, &c.

Patent Dry Earth Commodes in Walnut or Ash Cases.

Patent Dry Earth Apparatus for Fixed Closets or Privies, either Pull-up or Self-acting.

The Dry Earth Closet is a success-ful substitute for the water closet, being cheaper, less liable to get out of order, and positively free from odor. Suitable for dwelling house, sick chamber, merchants' offices, factories, schools, railroad depots, hospitals, prison cells, &c., &c. Call and see them at the Massillon Excelsior Works. 343-1y

Agents wanted in every town

T. R. Richmond,

Dealer in Pine Lumber. Shingles, Lath, dressed Flooring and Siding, Bill Lumber wide and common, Barn Boards, Fencing, Box and Second Pine, which will be disposed of on very reasonable terms. Lumber Yard on Erie st., opposite Tremont House, Massillon, where I will be glad to wait on customers who desire anything in the lumber line.

A. HARSH,

WHOLESALE DEALER IN

Notions and Fancy Goods,

AND MANUFACTURER OF

Umbrellas and Parasols,

Corner Main and Factory sts, Massillon, O

☞ *Repairing promptly done.* ☜

COAL

Of the best quality for family use from B. McCue's mine, near Canal Fulton, constantly on and, at the Massillon Coal Yard, west of canal near the gas works.

LUMP AND NUT COAL

delivered to all parts of the city at reasonable rates. Orders left at the yard, or in special box at post office, Whisler & Kaley's meat market, Diethelm & Son's, P. G. Albright's, C. N. Oberlin's and H. Alterkouse's grocery. E. DOXSEE, Proprietor.

340-y

Harmless, Beautiful and Lasting.

Mrs. S. A. Allen's Hair Restorer and Dressing. The attention of the public is invited to the valuable improvement recently made in this preparation. Its infallible property of quickly restoring Gray Hair to its original color, is here combined with a most agreeable dressing, all in one bottle.

Also her **Zylobalsamum,** another preparation, clear and transparent. A toilet luxury for cleansing, dressing and strengthening the hair, far preferable to French pomades, and at half the cost. Sold by druggists. 331-com-1y

S. R. Van Duzer & Co.'s Superior Flavoring Extracts are made from selected fruits Sold in Navarre by A. Garver. 331-1y

Walser & Grimmesey

Respectfully announce to the public that they are prepared for business in every department of

CARRIAGE and BUGGY

Manufacturing.

Particulars Hereafter.

Manufactory located on Factory street, between Main and Tremont streets, south of Doxsee's Mill.

WALSER & GRIMMESEY.

April 20, 1870.—356-tf

WARNING!

AS trespassers are frequently annoying my family and myself by going naked into the river, on my premises, within the corporation, in day time, and often destroy my fences so as to let my hogs out, thus losing them or incurring expense in securing their return—this, therefore, is warn all such trespassers that the law will be enforced against them if they continue these violations.

July 5, 1870—366 3t W. H. REED.

INDEPENDENT.

CORN SONG.

BY JOHN G. WHITTIER.

Heap high the farmer's wintry board!
Heap high the golden corn!
No richer gift has nature poured
From out her lavish horn!

Let other lands, exulting, glean
The apple from the pine,
The orange from its glossy green,
The cluster from the vine.

We better love the hardy gift
Our rugged vales bestow,
To cheer us when the storm shall drift
Our harvest fields with snow.

Through vales of grass and flowers,
Our plows their furrows made,
While on the hills, the sun and showers
Of changeful April played.

We dropped the seed o'er hill and plain,
Beneath the sun of May,
And frightened from our sprouting grain
The robber crows away.

All through the long bright days of June,
Its leaves grew bright and fair,
And waved in hot midsummer noon,
Its soft and yellow hair.

And now with Autumn's moonlit eyes,
Its harvest time is come,
We plucked away its frosted leaves,
And bear its treasure home.

There, richer than the fabled gifts
Apollo showered of old,
Fair hands, the broken grain shall sift,
And knead its meal of gold.

Let vapid idlers loll in silk,
Around the costly board;
Give us the bowl of sump and milk,
By homespun beauty poured.

Then shame on all the proud and vain,
Whose folly laughs to scorn
The blessings of our hardy grain,
Our wealth of golden corn.

Let earth withhold her goodly root,
Let mildew blight the rye,
Give to the worm the orchard's fruits,
The wheat field to the fly.

But let the good old crop adorn
The hills our fathers trod;
Still let us for his golden corn
Send up our thanks to God.

POWDER.

The mills of the Austin Powder Company are located about five miles from the city, in the Cuyahoga Valley. The grounds embrace eighty two acres of land upon one side of which are high hills, and upon the other the Ohio Canal. Before visiting these works we had no idea of their extent. The works consist of no less than twenty-seven buildings, including carpenter, blacksmith and cooper shops, as the company are prepared to do all the work required to send the powder to market, upon their own premises. This number of buildings does not include tenement houses on the top of the bluff, and only two of the magazines.

This company commenced the manufacture of powder at Akron in 1835, when the entire capacity of their mills was only fifteen kegs per week, and in those days, and for some time afterward, the entire consumption of powder for coal mining purposes in northern Ohio did not exceed 500 kegs per year. At this time the capacity of the present mills of this company is 300 kegs of blasting powder, or 160 kegs of sporting powder, per day, and many of the coal mines use 100 kegs, or more, every month. A few years the mills were removed to their present location, and we now propose to follow the lead of Mr. Austin through the dangerous and intricate windings of these extensive works. We confess to a little nervousness on starting out, as we had never 'smelt powder' to any very great extent, and our domestic relations being such that we had never been accustomed to being 'blowed up.' But being assured by our guide that there was no particular danger, and if anything should happen of an explosive character, it would probably be so sudden that we would not know what hurt us, we put on a bold front and started on the grand rounds. The first portion of the works visited was the retorts for the manufacture of charcoal.

These consist of two banks, six retorts each, in which the wood is reduced to carbon. These retorts are somewhat similar to those used in the manufacture of gas, though the amount of heat used is not nearly so great for the preparation of the coal, the degree of heat seldom rising to a sufficiently intense to melt lead. The wood used in making charcoal is soft maple, black alder and willow. The former is used in the manufacture of the coarser powders, and the latter two in that of sporting powder. Before going into the retorts the bark is carefully removed from the wood, and when the process is finished the natural shape is perfect, no change being apparent except in weight and color.

The brimstone used is called 'virgin rock,' and generally comes to the works refined and cast solid into barrels. It is as pure as it is possible to obtain it. We now come to the Pulverizing House.

Here the charcoal and brimstone, in proper proportions, are placed in cast iron cylinders, in which are also numbers of iron balls, the machinery set in motion, and by continuous revolutions of the cylinders, the ingredients are reduced to an impalpable powder, which is technically called 'pulverize.'

The saltpeter which is used for the better grades of powder, nearly, or quite all, comes from the East Indies. Nitrate of soda is sometimes used in the place of saltpeter, for the lower grades. To prepare these articles for use they have to go through a refining process. The crude article is thrown into iron reservoirs heated by steam pipes, where it remains until dissolved. These reservoirs will hold two tons each. After the substance becomes dissolved, it is drawn off into shallow cast-iron vats, while hot, where it is continuously agitated until cool. By this process the nitre crystalizes as it cools and the saline, and other impure substances are retained in the mother water, technically called 'back liquors.' The mother water is then evaporated, that all the nitre that remains of any value may be extracted and put to good use. By this process the salt and other impure substances are precipitated to the bottom of the vat, and the pure nitre crystalizes on the top. The nitre is chemically tested, and if not pure is subjected to further refining. This article, after being weighed into proper 'charges,' then goes to the mixing mills, where it meets the brimstone and the coal or 'pulverize.' We now come to a point in the manufacture where the material becomes explosive, and from this time out the utmost care is exercised by the workmen. As we enter the door Mr. Austin quietly says, 'Please walk gently on your toes.' We noticed that the workmen were either bare-footed or wore slippers. We did not allow the heels of our boots to touch the floor while we remained in *that* mill. There are five of these mixing mills, or 'wheel mills,' as they are generally called, placed in a circle around the engine house, about 175 feet distant therefrom, and about the same number of feet from each other. The object in placing the buildings so far apart is to prevent, as far as possible, one building communicating fire to another in case of an explosion. The mixing mills consist of two ponderous 'chasers,' or iron wheels, each running on solid iron bed plates. The 'charge' for each mill is one hundred and fifty to two hundred pounds. Here the ingredients are thrown together, and as the immense wheels revolve, are forced as it were one particle into another. The mixing process takes from three to eight hours, according to the quality of powder being manufactured. When it leaves the mills it is powder, but before it can be used it has to go through several other processes, the of next which is the pressing mills of which there are two, where it is formed into what is called 'press'd cakes.' These cakes are twenty-two inches square and three-quarters of an inch thick, and resemble a slate of Cannel coal. As the powder comes from the mixing mills it is placed in a mould covered with a copper plate and canvas, run under a press, where it is subjected to a pressure of six hundred tons, the power applied being an immense iron screw, worked by a large horizontal wheel. These cakes of powder are then transferred to the corning mills, where they are broken up by being passed between gun metal rollers. After being broken, the powder passes into seives or screens, where the size of the kernels is regulated. It is then carried by elevators to a bolt, similar to those used in flouring mills, where the dust is taken out, and it is then ready for the glazing mills, where it is placed in large wooden revolving cylinders, and by attrition the grains of powder, however large or small, become bright and thoroughly glazed and glistening. This is the last process in the manufacture. It is now ready for the packing house, to which it is taken, and prepared for market. A keg of powder is always understood to weigh twenty-five pounds, though sporting powder, and sometimes other kinds, is often put up in packages of different sizes. After leaving the packing house it is placed on a canal boat and taken to the magazines, of which the company have three, located some distance apart along the line of the canal.

Most of the machinery of these extensive works is driven by steam. The engine is one of the most beautiful we have ever seen. It was manufactured by Woodruff & Beach of Hartford, Conn., and is of seventy five horse power. Several of the mills are propelled by water power. All the buildings are connected by a wooden tramway, and the materials are transported from one to the other on hand cars. Everything about the works is arranged in the most convenient manner for economy and dispatch. About twenty-five men are employed steadily. The buildings are all of wood with the exception of the brick engine house and magazines, and generally of not a very expensive character. The machinery is of the very best description and costly, as it is of peculiar make and must necessarily be perfectly adjusted, to prevent friction as far as possible, and thus lessen the danger from explosions. We may here say that all the machinery in these works is of the latest and most improved patterns, and fully up to the wants of the times.

Thus ended our first visit to a powder mill. We were pleased at what we saw, but we can't say that we desire to go the grand rounds again. Although fond of a cigar, we do not know that we ever had a less desire to smoke than when in the mixing mills. Our guide said nothing about the matter, but we presume it is against the rules to smoke on any occasion while inside the boundaries of the grounds.

SNAKES IN INDIA.

Scinde has a most unenviable reputation for snakes; it is computed that eight or ten persons are killed every week by the bites of these loathsome reptiles; but they are commonly natives. The Europeans do not go into the by-places where the natives go—do not attempt the particular work that they do, and are differently lodged. One of the chiefs on the Scinde informed the writer that at the beginning of the rainy season the snakes were so numerous that although he confined his road in the vicinity of the town, he was obliged to carry a stick with which to throw them out of the way; these were not, of course, all venemous serpents.

You seldom speak to a man who has passed any considerable time in India, who has not, on at least one occasion, seen a snake in his bedroom, which is not very much to be wondered at, seeing that the warmth of the clothes must be very attractive to the reptiles. Three or four instances have come to the writer's own knowledge where the cobra has been found under a pillow on which a man has been sleeping all night. It is but seldom, however, that a sleeping man is bitten by a reptile; and, indeed, the snakes if more deadly, do not bite a fourth of the number that are bit en by scorpions, which latter are a perfect curse.

Of course the interior of a large city is freer from the reptiles than is the lonely, up country village; but even in cities it is not uncommon, after a storm of rain, to see a cobra twisting in the flooded gutters; which same is a very suggestive fact, and not a pleasant one. If only one venemous serpent were known to be at large in, we will say, Hyde Park, what terror and consternation would pervade the west of London; yet, let it be a common thing that such creatures should infest the place for a few years, no one would trouble himself about it.

One gentleman had a very narrow escape, the particulars of which we learn from himself. He was about to remove from one inland station to another—not railway stations these, although, I may observe he was survey or—and his trunks were packed up. These were removed to a sort of shed, awaiting the bullocks which were to take them on, when it struck him that a small one was insufficiently corded. He lifted it and saw that one girth of the cord had come off. It was twilight, which is equivalent to saying it was almost dark, and he could see the cord lying on the spot from which he had taken the box. He stooped to pick it up, but as he did so, the supposed cord reared itself in the hideous curve of the cobra, and threw back its head. The surveyor leaped desperately aside just as the creature launched himself at him. Not all the mendicants in the world could have given him twenty-four hours life had he been one yard closer to the line of its spring. He snatched a steel pointed rod which he used in his profession, and stretched the snake with a broken back upon the floor. It was believed that the cobra had dropped from the low roof on to the trunk, and had then crept under it. It was a long time ere my informant could speak calmly of this incident.—English Magazine.

FUN AMONG THE FREEDMEN.

One of my night scholars has not yet 'dun larnt his a b c's.' A big, strong fellow, he finds it 'a heap harder dan plowin.' He will never own that he does not know a letter.

'I'se had dat are in my head suah; only just couldn't sp-ak it;' or, 'Well, dat am him suah nuff. I knowd him, but he's so funny one couldn't see him!'

'Oh, Lordy, yes, dats F; didn't spose dat de feller you's talkin about?'

Our new school room, is a small house in the negro quarters on the plantation where I board. There are no sashes in the windows so I have to leave them (i. e., the shutters), open for light, and detail two or three Topseys to stand guard and keep out the hens, which were accustomed to equal rights with the former inhabitants. Sometimes in spite of the shoo, shooing, they force a passage. Topsey says, 'Ah, ha, you's got in, has yer?' then a chase over and under loose benches; finale, there comes a loud squawking.

'Yes siree! I'se got yer!' and the bird was ejected, minus sundry tail feathers. What a blessed thing is a good laugh.

M. C. says he met a former slave of his father's in Charlestown, lately, and accosted him: 'Well Sidney, going to get married are you?'

'Yes, sir, thirg I'll now.'

'Has your lady property?'

'Well, yes sir, got a little fortune put it with mine, (he hadn't a cent), and reckon we'll get along comfortable.'

'What has she got?'

'She's got a house; small one with four rooms in it.'

'Is it all her's?'

'Well, no sir, not 'zactly; it belongs to the family. She's got only four sisters and two brothers.'

Mr. C. also tells a funny one about Jones.

Some years before the war Mr. C.'s father commanded on board a steamer. One night when he came on board at the time of starting, he found everything in darkness—not a single lamp lighted. He called all over the boat for Jones, the colored man whose business it was to light up, but he got no answer. At last on going to the hatchway and looking down, he saw Jones seated on the floor drunk. He had the lanterns all around him trying to light them without removing the glass, and was talking to them.

'Better light, better light, I tell yer! Don't yer bear de capt'n callin yer? Better light, I tell yer? Drunk, hey? Nebber mind, capt'n fix you; larn you to get drunk!'

It was too much for the captain's gravity and Jones got off easy that time.—Southern Cor. in Rural New Yorker.

SAVED IN TIME.

Persons whose business requires a daily trip from one portion of the city to the other are not unfrequently observers of meetings between unprincipled men and thoughtless, if not unprincipled women. Especially is this true of those stages and cars which have for a terminus the Fulton Ferry.

A few evenings since a circumstance occurred, growing out of these meetings, which terminated rather differently from the most of them.

As the car stopped at the intersection of two streets; to wit for passengers, a man of the Broadway statute stripe entered, and took a seat beside a young girl of prepossessing appearance and apparently quite youthful.

Opposite these new comers sat a demure Quakeress, watching closely the actions of her neighbors.

Some of the passengers were drowsy and did not notice the flirtation. Others did, but were too accustomed to such scenes to pay more than ordinary attention to the conduct of this pair.

Not so the little Quakeress; her dark eyes flashed indignation at the man; and looked pleadingly at the girl. She grew nervous; the small hands trembled violently, and it was plainly evident that her position was one of torture. But she stood it bravely until the scamp handed a card, closely penciled, to the girl, who extended her hand to take it.

This was too much, and the self-constituted protector, with a quick movement, jerked the card from the young girl, and tearing it in pieces, threw it into the face of the original owner. With tears in her eyes and a tremor in her voice, rendered eloquent by emotion, she besought the young woman to be more prudent, and pay no attention to the brute who had insulted her. By this time the passengers were aroused, and listening with no little interest, to the earnest voice of the strong woman offering protection to her erring sister, who, to her credit be it said, did not spurn the rebuke administered, but hung her head in shame.

The other actor in the scene found the air too oppressive, and sheepishly retired.

There was a strongo desire on the part of the passengers, composed mostly of men, to applaud the fearless woman, but she quietly left the car, accompanied by the imprudent girl, who probably owes her salvation to her interference.—N. Y. Standard.

AN EXPERT ACCOUNTANT.

A Boston merchant named Pickernel, one day received a letter from an old friend in Vermont, informing him that he had a boy who was quick at figures and an expert accountant, and in every way fitted for a mercantile house; and the letter closed with the desire that the Boston merchant would give him employment or find him a situation.

Requiring the services of such a boy, the merchant answered the application, and told the father to send the boy to him. In time the intelligent boy presented himself.

'An, you are the son of my old friend,' said Pickernel.

'Yes, I s'poseso,' replied young Vermont.

'Well come in here, then; I am very busy, but I will examine you in a few practical questions.'

The boy came in, and sitting down on the desk swung his heels underneath it as though he felt entirely at home, waiting the questions.

'Well,' said Pickernel, suppose a lady should come in here and buy a dress fifteen and a half yards of calico for eleven and a half cents a yard, what would it all come to?'

The boy looked at his questioner, at the ceiling, at the floor, in a state of great bewilderment.

'How much calliker?' he asked.

'Fifteen and a half yards.'

'What price?'

'Eleven and a half cents.'

He thought a moment.

'Well,' said he, 'I'm darned if I believe any woman ever wanted so much cloth for a dress as that.'

This was throwing up the sponge, and Pickernel put another question.

How much would five and a half pounds of tea come to at seventy-five cents and three quarters per pound?

He received this pretty much the same as the other, and after waiting a minute, he asked;

'Was it green or black tea?'

Without answering Pickernel put another question:

'Suppose I should send you out with a two dollar bill, and you should buy fourteen and a half pounds of beef at seven and a half cents per pound, how much money would you have back?'

The boy looked at Pickernel for an instant, and then indulged in a low whistle.

'You don't spose,' said he, you could get beef anywhere at seven cents and a half a pound, do ye?'

Pickernel gave it up at this.

He asked no more questions, but sent him back next day with a letter stating that he didn't think he would answer.

PROTECT YOUR EYESIGHT.

Milton's blindness was the result of overwork and dyspepsia. One of the most eminent American divines, having for some time been compelled to forego the pleasure of reading, spent thousands of dollars in value, and lost years of time in consequence of getting up several hours before sunrise and studying by artificial light. His eyes never got well.

Multitudes of men and women have made their eyes weak for life by the too free use of the eyesight, reading small print, and doing fine sewing. In view of these things, it is well to observe the following rules in the use of the eyes:

Avoid all sudden changes between light and darkness.

Never read by twilight or moonlight, or on a very cloudy day.

Never sleep so that on waking, the eyes shall open on the light of a window.

Do not use the eyesight by light so scant that it requires an effort to discriminate.

Never read or sew directly in front of the light, or window or door.

It is best to have the light fall from above, obliquely over the left shoulder.

Too much light creates a glare and pains, and confuses the sight. The moment you are sensible of an effort to distinguish, that moment cease, and talk, walk or ride.

As the sky is blue and the earth green, it would seem that the ceiling should be a bluish tinge, the carpet green, and the walls of some mellow tint.

The moment you are instinctively prompted to rub the eyes that moment cease using them.

If the eyelids are glued together on waking up, do not forcibly open them, but apply the saliva with the finger—it is the speediest dilutent in the world—and then wash your eyes and face in warm water.

HOW TO KEEP COOL.

1. The diet should be composed largely or entirely of fruits, fresh vegetables, and wheat meal bread, or other preparations of wheat and oat meal. Corn meal bread and cakes should be seldom eaten, if at all during hot weather. Avoid all stimulating or heating articles of food, as meats, especially fat and salted meats, butter, gravies, and greasy food of all kinds, sugar, mustard, spices, &c. Do not eat hot food, and especially avoid eating more than the system requires.

2. Drink nothing but water and that only in small quantities at a time. Of course, this precludes the use of tea, coffee, and all alcoholic drinks.

3. The clothing should be light, light-colored, loose-fitting, and changed often.

4. The entire body should be bathed every day, either in the morning or at night. Farmers and others who perspire freely and are exposed to dust, should bathe at night. They will rest and sleep better for doing so. The whole body can be effectually cooled in a short time, by holding pieces of ice in the hands, or letting a stream of cold water run upon the wrists or ankles.

5. Avoid all undue labor mental or physical.

A mistaken tourist was found weeping over the ice house at Mt. Vernon, thinking he was dropping tears at the tomb of Washington.

Scandal like a kite, to fly well depends greatly on the length of the tail it has to carry.

Twenty-five English noblemen have been driven into bankruptcy by gaming on the turf within ten years.

An exchange wants to know if, when women blush and weep, they can be said to raise a hue and cry.

A lady who lives in Brattleborough, Vt., has been bereaved of a daughter, who died at the tender age of eighty. The mother has been a widow for sixty years.

When riding on a donkey what kind of fruit do you represent? A pair.

If a woman could talk on both sides of her mouth at once would there be a great deal said on both sides.

When a married man becomes cool it is perfectly right that his wife should pull his ears.

Experienced husbands can tell when their wives are about to ask for money by the way they purse their mouths.

An exchange notes as the most harrowing sight it ever saw, the spectacle of a gentleman in a dress suit of black harrowing in a field, with a tall plug hat on.

A bachelor used the following modification of a hackneyed phrase in congratulating a newly married couple: 'I wish you much jaw.'

Why is i the happiest of the vowels? Because is in the midst of bliss, e is in hell, and all the others are in purgatory.

Massillon, Wednesday, July 20.

REPUBLICAN PRIMARY ELECTION.—The Union Republican voters of Stark county are requested to assemble at the usual places of holding primary meetings on

SATURDAY, AUGUST 13th, 1870

for the purpose of nominating candidates for the offices of Recorder, Commissioner, Infirmary Director and County surveyor

Also to select delegates to the Union Republican Congressional Convention and to elect one member of the county central committee from each township

The number of congressional delegates from each township will be announced hereafter.

WM. MCKINLEY, JR.
Chm' Central Com.

We this week have the pleasure of announcing the name of ARVINE C. WALES as a candidate for state senator, to fill the vacancy occurring by the resignation of B. F. Potts. To all those who are personally acquainted with Mr. Wales, it is entirely unnecessary to address our remarks, as they are fully aware of his competency and integrity for the position. It is to those who are unacquainted with him that we would say, that we request their vote and hearty support in his behalf. He has been a life long resident of Stark county, a gentleman and scholar who is thoroughly posted upon all the issues of the times, has always been a true republican from the first organization of the party, and we feel confident that his district cannot select any person more capable to fill the position, as a successor to the retiring gentleman, who has so satisfactorily represented us for the two past terms. This end of the county will be a unit in his support, and we trust that the remainder of the county and district will give him their support.

This is a year of tornadoes and thunderstorms. Scarcely a day has passed for some weeks that has not brought accounts of destructive storms in one or another part of the country. There have been more storms, and more wide spread devastation by wind, rain and lightning, than for any year within the memory of the "oldest inhabitant." What do the weather wise savants attribute this to?

The savages in Texas are on a marauding expedition, and recently encountered a body of troops and defeated them. It was discovered that the savages were armed with Spencer rifles and six shooters, and that they manœuvred with better skill than usual. If all the indians would accept our own way of fighting, moving according to specific tactics and carrying plenty of Lunglesome traps with them, we could finish them in a very few battles.

The war news from Europe, up to Saturday remains unexciting and unsatisfactory, being made up mainly of gossip and speculations. There has been no battle as yet, nor is there any reliable data for predicting one immediately. Each side seems watching the other, willing to wound, and yet afraid to strike.

The latest previous reports indicated a forward movement of the whole French line northward, and that the Prussians were falling back toward the Rhine, where the first serious resistance to the French advance would be offered, either at Mayence or in front of it. Now we have a change in the story. The movement of the Prussian troops in the neighborhood of Treves is said to be not falling back, as at first stated, but a concentration to dispute the passage of the French left wing down the Moselle from Thionville. It is reported that 400,000 Prussians have concentrated between Treves and Metzg, on the line of the Saar, and will prevent the crossing of the river by the French troops, said to number but 300,000 men. Of course, this, like the previous story of the Prussians falling back, must be taken with proper allowance.

The state of feeling in England continues excited. The general sentiment seems to be that any suspicion of peril to Belgium must be prevented, even at the cost of sudden war. Preparations for such a contingency are actively going on.

In the meantime rumors of negotiations and probable peace are gaining strength. It is known that efforts are making to that end by the great neutral powers, who fear being involved in the quarrel should actual war accur between the two hostile parties It is said that Napoleon fears that his opportunity has slipped by, and with his constitutional hesitation after a rash step, he is now anxious to find a pacific way out of the difficulties into which he has plunged himself. Prussia asserts that even at this moment France would gladly make peace could it be unmolested in its design on Belgium, but this cannot be. We have not yet abandoned the opinion that the difficulty between the two rival powers may be settled without being pushed to bloody arbitrament.

COUNTY CONVENTION.

The Republican Convention met at Harters Hall on Saturday July 29th at 1 o'clock P. M.

Simon Johnson, Esq, of Alliance, was called to the chair.

Josiah Hartzell appointed Secretary.

On motion of Major McKinley a committee of five, consisting of Major McKinley, James W. Underhill, Robert Wilson, Samuel C. Bowman, and Dr. J. Armstrong was appointed by the chairman to report the names of 10 delegates to the republican state convention, August 10th.

The committee reported the following delegates and alternates:

DELEGATES.

John H. Brenner, Canton township, James Ammerman, Lexington township; Ellis N. Johnson, Lexington township; Wm. W. McClan, Marlboro township, Wm M. Johnson, Sugar Creek township, Samuel C. Bowman, Perry township; J T Perdue, Paris township, Enos Raff, Bethlehem township; J. E. Dougherty, Lake township; Samuel Lual, Plain township.

ALTERNATES.

Charles Colton Lexington township; John C. Mong, Sandy township; Peter Chance, Canton township, Robert Wilson, Osnaburgh township, R. K. Porter, Lawrence township, Albert Beach, Perry township; James W. Cunderhill, Canton township; Moses Bachtel, Pike township, Samuel Ake, Osnaburgh township; Emanuel Shopp, Nimishillen township.

The reports of the committee was unanimously adopted. On motion of Hon. H. S. Martin the following resolutions were unanimously adopted:

Resolved, That the Republican Party both state and national has renewed claims upon the intelligent and patriotic citizens of our common country for the manner in which it has redeemed its pledges in the past—pledges to save, reconstruct and restore the union—reduce the public debt—diminish taxation and guarantee to all men equality before the law.

Resolved, That the republicans of Stark county, in convention assembled, hereby renew their assurances of fidelity to the party and the principles it has supported during the most perilous years of our national existence.

On motion the following resolution was adopted.

Resolved That the chairman of the county central committee be instructed to have presented and decided at the republican primary meeting, for the April election, 1871, the question of changing the present mode of county nominations for the republican party from the present system of the popular ballot alone to that of the popular ballot and delegate convention combined. By which last method we mean that primary elections shall be held as now, but no candidate shall be considered as nominated unless he shall receive a majority of all the votes cast throughout the county at said election, although he should receive more votes than any other candidate; that at said primary elections each Tp. of the Co shall select delegates in due proportion to the whole number to be selected in the whole county, to a county nominating convention to meet at Canton—that the delegates shall return the vote from their respective townships to said convention, which shall canvass the vote and declare the result. That in all cases where no candidate receives a majority vote the delegate convention shall nominate a candidate for the office in question.

Resolved, That we are in favor of holding the senatorial and congressional conventions at the same place, and on the same day. It was further

Resolved, That the delegates appointed to the state convention have power to fill all vacancies. On motion

Resolved, That the proceedings of this convention be published in the several republican papers of this county.

The convention, then, on motion, adjourned *sine die*.

SIMON JOHNSON, Ch'n
JOSIAH HARTZELL, Sec'y.

MR. EDITOR:—Noticing in your last issue the name of A. W. Coates as candidate for the nomination of state senator, and knowing a little of the past, much of the present, and having great hopes for the future of this gentleman, we append these few lines for the benefit of those whose opportunity to ascertain the character of said person has been more limited than my own.

Wm. Coates was a member of the society of Friends in Philadelphia, from which place he moved, to the then comparative wilderness of Stark. It was in Marlboro township, in 1811 that the present candidate made his first entry into the world.

His rudimentary education was conducted by his mother, who instilled in to the youth the love and fear of God. At the age of 15 he graduated with honor at the academy in that place.

At 18 he was acknowledged as a first class moulder, after which his life led upward and like all men of energy and perseverance he is still advancing. He is patentee of the "Superior Lock Lever" hay and grain rake, of which they manufactured 4000 this last year.

He was admitted to the bar in 1862 but has never found it necessary to practice. He is a staunch defender of Christianity, temperance and education. A man of much self will and has the strictest sense of honor.

This office is not of his own seeking, but Lexington being deserving of it, and he being the most able, his friends have consequently forced it upon him.

Why does Alliance deserve it? viz. these claims. Massillon, Canton and Carrolton have all been represented, while Lexington who rolls up her 635 majority for Grant, is, as yet, in the cold.

The undersigned has been appointed and qualified as administrator of the estate of James Harsh, late of Massillon, Stark Co, deceased. GEO. HARSH.

Massillon, Aug 3d, 1870 6w 70

NEW YORK CITY, March 28, 1870.

Having used Dr. Whittlesey's medicine, I have no hesitation in saying that in my case it proved a decidedly efficacious remedy for dyspepsia, and with the removal of the complaint, promoted a healthy action of the digestive organs generally. I should judge from its effects that it combined ingredients which serve both as a mild tonic and aperient, contributing to the salutary action of the liver, and the purifying of the blood. Indeed, so happy have been the results produced by this medicine in my case, that I shall certainly use it in future dyspeptic troubles in preference to any other pronounced remedy with which I am acquainted. I. LUAVIL ODGIERS

P. S.—During five years' residence in India and Australia, when I was a member of the Civil Service; I experienced, with others, considerable inconvenience from dyspepsia and constipation occasioned by the great heat of the climate, and from what I know of Dr. Whittlesey's Vegetable Remedy, I feel convinced that its introduction into those countries would confer a vital benefit on the inhabitants, by invigorating the action of the liver, and stimulating the digestive organs. The best remedies I could procure at that time, as well as other remedies I tried in England, proved decidedly inferior in their curative properties to Dr Whittlesey's.

I. LUAVIL ODGIERS,
of England, now of

Dauchey & Co's new advertisements.

The Great Medical Dis.

Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS.

More than 500,000 persons bear testimony to their curative effects

For Female Complaints, whether in old or young, married or single, at the dawn of womanhood or the turn of life, these tonic bitters have no equal. Send for a circular.

What are They?

They are a gentle purgative as well as a tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving congestion or inflamation of the liver, and all the Visceral Organs.

THEY ARE NOT A

VILE FANCY DRINK.

Made of poor rum, whisky, proof spirits, and refuse liquor, doctored, spiced, and sweetened to please the taste, called tonics, appetizers, restorers, &c, that lead the tipler on to drunkeness and ruin, but are a true medicine, made from the native roots and herbs of California, free from all alcoholic stimulants.

They are the great blood purifier and life giving principle, a perfect renovator and invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition No person can take these bitters according to directions, and remain long unwell.

$500 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means and the vital organs wasted beyond the point of repair.

For inflamatory and chronic rheumatism, and gout, dyspepsia, or indigestion, bilious, remittent, and intermittent fevers, disease of the blood, liver, kidneys and bladder, these bitters have been most successful. Such diseases are caused by vitiated blood, which is generally produced by derangement of the digestive organs.

Cleanse and vitiate blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when you find it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

Pin, tape, and other worms, lurking in the system of so many thousands, are effectually destroyed and removed.

In bilious, remittent and intermittent fevers, these bitters have no equal For full directions read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

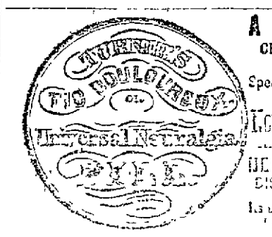
SOLD BY ALL DRUGGISTS



It is an unfailing remedy in all cases of neuralgia facialis, often effecting a perfect cure in less than twenty-four hours, from the use of two or three pills.

No other form of neuralgia or nervous disease has failed to yield to this wonderful remedial agent.

Even in the severest cases of chronic neuralgia and general nervous derangements,—of many years standing—affecting the whole system, its use for a few days, or a few weeks at the utmost, always affords the most astonishing relief, and very rarely fails to produce a complete and permanent cure.

It contains no drugs or other materials in the slightest degree injurious, even to the most delicate system, and can always be used with perfect safety.

It has long been in constant use by many of our most eminent physicians, who give it their unanimous and unqualified approval. The following, among many of our best citizens testify to its wonderful efficacy:

Having used Dr Turner's Tic Douloureux or universal Neuralgia Pill personally—and in numerous instances recommended it to patients suffering with neuralgia—I found it without an exception, to accomplish all the proprietors have claimed. J. R. DILLINGHAM, Dentist. 12 Winter st, Boston Feb. 18 1867.

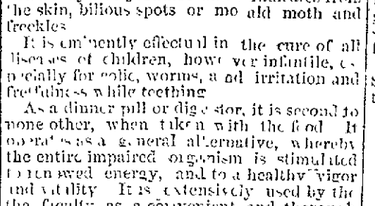
Mr. J M R Story, for many years an apothecary in this city, and for three years during the war, in the hospital department under the U S government, thus speaks of it

I have known Dr Turner's Tic Douloureux or Universal Neuralgia Pill for twenty years. I have sold it and used it personally, and I have never known of a case where it did not give relief. Customers have told me they would not be without it if each pill cost ten dollars. I think it the most reliable and valuable remedy for neuralgia and nervous diseases in the world.

Messrs. Turner & Co.—For a long time a member of my family has suffered severely with neuralgia. The pain was almost unendurable. We tried various medicines without success. A few months since we began the use of your pill. It has proved perfectly successful, and no traces of the disease remain. I can gladly recommend your remedy to all sufferers from neuralgia. Respectfully yours. F W PEETON.

Boston, March 25, 1867.

Sent by mail on receipt of price and postage. One package $1, postage 6 cents. Six packages, $5, postage 27 cents. It is sold by all dealers in drugs and medicines and by TURNER & Co., Sole proprietors, 120 Tremont st. Boston, Mass.



MILD, CERTAIN, SAFE and EFFICIENT

It at once relieves and invigorates all the vital functions, without causing at any time, or under any circumstances, the slightest injury to any of them.

The most complete and uniform success has for many years attended its use in France, and in some portions of the United States and is now offered to the general public, with the most absolute conviction that it can never fail to accomplish all that is claimed for it.

It is a purifier in the extreme at all times, and under all circumstances, and is unequalled by any remedy yet known to the world where a purgative is indicated

It produces little or no pain in its operation, leaves the organs free from irritation, and never, in the slightest degree, overtaxes or excites the nervous system.

In bilious diseases, indigestion and dyspepsia, it is invaluable.

It is the grand purifier of the blood, and hence cannot fail to eradicate from the system scrofula, erysipelas, salt rheum, canker, and cutaneous eruptions generally Irregular, or want of appetite, coughs, asthma, bronchitis, catarrh, colic pains, diarrhœa, impure breath, dizziness, sympathetic, nervous or sick headache, rheumatism, gout, and inflamation in all forms—these and all kindred diseases can always be wholly cured or greatly relieved by this mild yet powerful agent.

Debility with its inseparable accompaniments—mental and physical,—such as green sickness, lassitude of mind and body, drowsiness, indisposition to exercise, weakness of the limbs, feelings of discouragement, dispondency and distrust,—all disappear under its magic influence.

It regulates and invigorates the bowels; is a sure antidote for obstinate costiveness and piles, gives renewed vigor to the stomach, wakes the action of the liver, dissipates the yellow dye of jaundice and eradicates from the skin, bilious spots or moles, moth and freckles

It is eminently effectual in the cure of all diseases of children, however infantile, especially for colic, worms, and irritation and restlessness while teething

As a dinner pill or digestor, it is second to none other, when taken with the food It operates as a general alternative, whereby the entire impaired organism is stimulated to renewed energy, and to a healthy vigor and vitality It is extensively used by the the faculty as a convenient and thorough cathartic, having no action other than the one intended Sent by mail on receipt of price and postage, viz: One box 25 cents, postage, 6 cents. Five boxes $1, postage 18 cents It is sold by all dealers in drugs and medicines, and by TURNER & Co., 120 Tremont st. Boston, Mass

THIS IS NO HUMBUG!

By sending 35 cents, with age height, color of eyes and hair, you will receive by return mail; a correct picture of your future husband or wife with name and date of marriage. Address W. Fox, P O Drawer, No. 24, Fultonville, N. Y.

Louis Schaufele,

Watchmaker, Jeweler, Dealer in Musical Instruments &c

Sole appointed agent for this place No peddlers employed or supplied. 3y

Opera House Enterprise,
ALLIANCE, OHIO.

VALUE....$8,000. | TICKETS....$5,00 EACH

The Proprietor of this fine structure, Mr Crew, having made an assignment, the mortgagees and assignees have consented to put it up in a

GIFT ENTERPRISE.

For the benefit of his creditors, generally, who, outside of the mortgage holders, would meet with the entire loss of their claims, if the building should be put at forced sale. The rents of the building could be made pay better. The honesty of the transaction is endorsed by E. Teeter & Son, and Greiner, Steel & Co., bankers, Alliance, Ohio, which firms can be consulted in the matter by any one desiring further information. The money for the sale of tickets will be deposited with the above named bankers, at whose counters the ticket money will be refunded, provided anything should occur to prevent the distribution. If the tickets are not sold sooner, the drawing will take place SEPTEMBER 10th 1870.

Address,

RELIGIOUS NOTICE.—Prest. Benton of Alliance College will preach in the Christian church, on Hill street, on Sunday, August 7th. Services at 10:30 a. m., and 7:30 p. m.

We are in receipt of a copy of the Open Bible, a work of great power and interest to the protestant public, in view of the recent effort to banish the Bible from the public schools. The attention of book agents or others unemployed is directed to the advertisement of the publishers in another column.

A NEW AWNING.—A new awning has just been put up at Fred Sibila & Co's Clothing Store, on Main street, and at several other places in this city, by Mr. W. Matteer. It is ahead of anything of the kind we have ever seen, being protected from the weather when rolled up, and can be easily adjusted, rolled and unrolled. It works like a charm, and we advise all who are interested to examine this awning. 364-tf

Mr. Frost is still on the sick list, but when last heard from was slowly improving, and we hope ere many days will again be able to perform his duties as editor of this paper, until which time, we ask the forbearance of our readers for the quality of reading matter presented.

Estep has received a line of pretty handkerchiefs, including Brussels lace, trimmed, hem-stitched, corded, plain &c.

Gloves, hosiery, corsets, hoop skirts, and white skirting at Estep's.

EDS. INDEPENDENT.—Will you announce the name of ARVINE C. WALES Esq., for state senator to fill the vacancy occurring by the resignation of B. F Potts. Subject to the republican nominations.

MANY VOTERS OF PERRY.

Martin Schafer has secured the agency of the Improved Singer Sewing Machine which is conceded to be the best sewing machine in the market. He also keeps on hand and for sale needles for the Howe, Singer, Wheeler & Wilson, Grover & Baker, and Wilcox & Gibbs sewing machines, also the best quality of machine oil, Erie street, North of Main, Massillon, O.

During this warm weather when lemons are scarce and high, and cooling drinks are something desired by all, a good substitute for lemonade can be found at London's, in the shape of Durkee's Lemon Sugar, which preparation contains all the good qualities of the lemon, is much cheaper and makes equally as good a drink. Try it.

Mr. C. N. Oberlin has commenced tearing down the old brick house on his lot on Main street, to make room for a fine new residence to be built on the site of the old one.

It is stated that parties are about to put up a saw mill, some two miles west of town, on what is known as the Albright farm. This is a good point for an undertaking of that kind, and we hope those engaging in it will meet with abundant success.

Gold is going up, but Ricks' have not advanced the price of any kind of dry goods.

Ricks' are selling dry goods and carpets at the lowest market prices.

Lawns, poplins, percales, grenadines and other pretty dress fabrics at Estep's.

Parasols, a new lot, and good styles at cost, at Humberger & Son's,

Linens, lawns and summer dress goods at reduced prices at Humberger & Son's.

We are under obligations to F. M. Myers, General Ticket Agent of the P. Ft. W. & C R. W. for favors received. The time table came to hand after our outside was printed making it impossible to correct it this week, but it will be all right in our next issue.

We notice that our park commissioners have been at work, and have got the ground measured and staked off, and we understand are making preparations to put in the foundation for the monument.

Estep has a good stock of table diapers, crashes, napkins and towels very cheap.

Collars, real thread, Mattese, linen and lace, the newest designs at Estep's.

The war in Europe will of course necessarily affect all goods manufactured in those countries. Alpacas and foreign dress goods have already advanced. Ricks' are selling their entire stock of these goods at old prices.

The friends of Mr. A. J. Humberger and Rev. R. L. Williams, whose illness was noted last week, will be pleased to learn that both of these gentlemen are improving in health, and that they will soon be able to resume their respective duties.

The new school house now being erected in West Massillon, will be one of the finest and most convenient buildings for educational purposes in this part of Ohio.

Grain socks by the dozen or piece at Humberger & Son's.

Humberger and Son have just received an invoice of nice shirting flannels and are cutting them at low prices. Go and see them.

We hear it reported on the street that miners have gone to work in the bank of Mr. J. P Burton, at Lawrence, but whether it is at the reduced rates or not we have not heard.

John Lowe, Erie street, is agent for the Cincinnati Gazette, daily, semi-weekly and weekly editions. Persons subscribing for this paper can have it delivered to their residence by leaving their names with him.

Woolen yarn $1 per pound at Humberger & Son's.

Delains only 12½ cents at Humberger & Son's.

A coal oil horror happened in Steubenville, last Thursday evening. Miss Eva Peters, was kindling a fire in a stove, and to make it burn more quickly commenced to pour kerosene upon it. The gas ignited and running up the descending stream an explosion was the result. The contents of the can were throws over her person, and in a moment her clothing was in flames. She was so badly burned that she died in about three hours afterwards.

The musical entertainment given by Mrs. Drew, on Thursday, Friday and Saturday evenings of last week were tolerably well attended. The Flower Queen was rendered in a manner seldom surpassed even by professionals. All engaged in it acquitted themselves with credit and in a way that gave entire satisfaction to the audience.

GRAPES.—Dr. Watson had for sale during the greater part of last week, a quantity of nice, ripe grapes, which were raised in his hot house. The Dr. is always ahead of anybody else in this vicinity with his fine varieties of small fruits.

DUTCH TREAT.—A gay youth who resides not a thousand miles from this city, took two young ladies into an ice cream saloon, on last Saturday evening, and after ordering the ice cream, &c., "lit out," leaving the girls to foot the bill. If that young man is industrious, and maintains through life the saving spirit he manifested on this occasion, he may die a wealthy man, perhaps.

Next winter young ladies are not to wear church steeples on their heads as they do now, but, instead, bear skin hats such as grenadiers carry are to be all the rage. A cotemporary says, it will be a singular freak of fashion that will send women of the highest tone out into inclement December in their bear skins.

The street commissioner is actively at work fixing up the sidewalks on Main street, in West Massillon which improvement has been needed for some time past.

TRY IT HERE.—We read in a Boston paper that eighteen young men in that city had been fined ten dollars each for habitually loafing on the street corners. If fines were collected here for a similar offence the regular tax payers of the borough would soon find their burdens very materially lightened.

The Disciple or Christian church of this place was re-opened on Sunday last by Elder F. M. Green, of Alliance, who delivered an able and well chosen discourse to an interested and appreciative audience. We understand the intention is to have services there every Sabbath, or as often as possible. On next Sunday there will be preaching in that church, morning and evening, by President Benton, of Alliance College.

"The Campbells are Coming?" Not to release a besieged garrison as was the case on the occasion referred to by the immortal bard, but on the contrary, to cater for the amusement of our fun loving public. On Friday, Aug. 12th Campbell's Mammoth Circus and Menagerie will pitch their tents in this city, and give our citizens an opportunity of seeing one of the largest collections of animals ever exhibited in these parts. This menagerie is accompanied by the largest and best organized circus company now traveling in the United States, numbering among its performers some of the most popular actors in the profession. In short it is one of the largest and best combinations extant, and cannot fail to please all who see the show.

The weather has been unusually hot thus far this summer. The thermometer frequently reaches nearly 100 degrees in the shade, making anything but a quiet, shady nook very disagreeable. We have frequent rains, however, keeping everything in excellent growing condition, Corn especially doing fine.

One of the most filthy, disagreeable habits n existence, and one which ranks side and side with tobacco chewing among men, is the practice of chewing gum, which is so much in vogue among many who consider themselves young ladies. This stuff which they place in their mouths and seem to chew with so much relish, is made at Poduck, Massachusetts, out of gum-arabic, rosin and coarse fat. Any kind of fat, even that of dead dogs, is used in the manufacture, and when the ingredients are placed in boiling kettles, a small quantity of the most nauseous liquid foam is put in to whiten the gum, when the mixture has boiled a sufficient length of time, it is taken from these kettles and allowed to cool and harden then it is done up in packages, and sold to young ladies to exercise their masticators upon. When this fact is known, and it is a fact, as the writer hereof can testify, girls, or anyone else, have a perfect right to chew gum if they want to.

The first peaches of the season made their appearance at London's on last Wednesday. They came from Cincinnati, and as the boy said, were somewhat "costive."

Mr. N. M. Klutz has purchased the City Hotel, near the depot, and is prepared to accommodate all who may favor him with their patronage.

The Salem *Republican* comes to us enlarged to a thirty-six column paper, and is printed from an entire new dress of type, on a power press. We are glad to see this evidence of prosperity on the part of Bro. Rukenbrod, and hope his efforts will be rewarded by a largely increased subscription list.

Messrs. Wert & Ball, who have been engaged in the boot and shoe business in this place, for some three years past, have dissolved partnership, Mr Ball retiring from the firm. Mr. Wert will continue to carry on the business at the old stand, second door south of C. N. Oberlin's, where he will be pleased to see his numerous friends and customers. We have been acquainted with Mr. Wert for several years and can cheerfully recommend him to our friends who may want anything in his line, as we know that they will be fairly dealt with. Give him a call.

The American House is being treated to a new coat of paint, and receiving a thorough overhauling and re-furnishing inside. This is one of the best hotels in this section of the country, and the gentlemanly proprietor, Col. Madison, spares no pains to make everything comfortable and convenient for his guests.

COUNCIL PROCEEDINGS.

Wednesday Ev'g, July 27, 1870.

Regular session.—Members present—Messrs. G. L. Russell, C. London, A. Mong, J. H. Ogden, F. Ruchti, S. A. Conrad, F. Crone and Geo. Bollinger.

Minutes of previous meeting read and approved.

Mr. W. C. Richards, from the Board of Health, was present and desired information in reference to the payment of expenses incurred in the case of sickness, &c., of the family on Mill street, between Main and Charles streets.

The matter was discussed, and an order drawn on the treasurer for for $25 in favor of Mr. Richards for money advanced.

On motion of Mr. Mong the Judiciary committee was instructed to report an ordinance fixing the grade of Muskingum street in accordance with the profile of said street.

Committee on City Prison reported having changed the place by substituting a two foot wall in place of an 18 inch wall, which was approved.

On motion of Mr. Ruchti, the committee was authorized and directed to advertise for proposals for the building of the foundation wall of new prison.

Mr. Clement Russell tendered his resignation as a member of the Board of Equalization which was accepted.

Orders were drawn on the city treasurer for the following amounts:

E. Butler—per Hewes' order—$24.25; Davenport & Co., bal. of Sippo Creek Bridge $33.82; C. London, repairing and whitewashing $6,00; M. Brownsberger—taking care of hose—$10,00; J. Hewes, street commissioner, $150,00.

Ordinance No. 171 was read a first time and filed with the order of the day.

DIED.—On the 24th ult., JOSEPH ROBERTSON, aged 34 years 5 months and 5 day.

He died the death of the righteous and now he is reaping a Christian's reward in the land of promise. B.

DEFRAUDING A SOLDIER'S ORPHANS.—Alexander P. Fenton, of Conneaut, was brought before United States Commissioner White on Thursday on the charge of having withheld from two orphan children of Alexander Dorn the bounty money due their father in his life time for having volunteered in the service of his country. The Commissioner let him off with the payment of costs and the bounty.

This is the second time, if we are not much mistaken, that this man Fenton has been arrested for collecting and pocketing money earned by the offering of life on the altar of our country. Stealing from orphans is mean enough, in all conscience, but stealing from a soldier's orphans ought to be reckoned as the most despicable act known to the law. We regret to know, however, that some of our law officers do not agree with us.—Cleveland Herald.

Petition for Partition.

THE STATE OF OHIO, *The County of Stark.*

THE COURT OF COMMON PLEAS.

Jacob Sibila, *demandant*, vs. Joseph Blackburn, George W. Blackburn, J. Marshal Blackburn, B. Franklin Blackburn, Mary Alberto, wife of Henry F. Alberto, Lucy Walker, wife of Richard Walker, Jr., Elizabeth Huffman, wife of Christian Huffman, and heirs at law of Hannah Blackburn, deceased, *defendants.* } PETITION for PARTITION.

The above named defendants, all of whom excepting the defendants Mary Alberto and Lucy Walker, reside out of the county of Stark, will take notice that on the 18th day of July, A. D. 1870, the said Jacob Sibila filed his petition in the court of common pleas of said Stark county, setting forth among other things that he is the owner in fee of fourteen acres and four hundredths of an acre of land, being part of the south-west quarter of section one, township twelve, Tuscarawas, and range ten, a pertinent discription of which fourteen acres and four hundredths of an acre is as follow: Commencing at a stone in the south-west corner of said quarter, and running thence east on the south line of said quarter with the variations thereof, nine chains and seventeen links to a stone; thence northerly eleven chains and seventy-four links, to a stone; thence north fifty-one and one half degrees, west eleven chains and fifty links to a stone on the west line of the quarter; thence south on said west line eighteen chains and eighty-three links to the place of beginning, except six acres and sixty one-hundredths of an acre, which is owned by the above named defendants excepting one undivided eighth part of said six acres and sixty one-hundredths, which is owned by said demandant. The prayer of said petition is, that said tract of fourteen acres and four hundredths of an acre be so divided that the interest of said demandant therein may be set off to him in severalty, and if the same cannot be done without manifest injury to said premises, then that such other and further proceedings be had as are authorizedby law, & that said petition will be for hearing before said court of common pleas at the next term thereof, commencing October 17th, A. D. 1870. JACOB SIBILA,

368-6w By R. H. FOLGER, his atty.

July 20, 1870.

Petition for Partition.

THE STATE OF OHIO, *The County of Stark,*

THE COURT OF COMMON PLEAS,

Aurelia Banks, *demandant*, vs. Margaret Myers, and Isaac R. Myers, husband and wife, *defendants.* } PETITION for PARTITION

The said Margaret Myers, wife of said Isaac R. Myers, and who with her said husband resides in the city of Pittsburgh, county of Allegheney, and state of Pennsylvania, will take notice that Aurelia Banks, the above named demandant, as heir at law of Sophia Banks, deceased, has this day filed her petition in the court of common pleas of said county setting forth that as heir at law of said Sophia Banks, she, said demandant, is entitled as tenant in common with said Margaret Myers to one undivided half of the north-east quarter of lot of block numbered one hundred and eighty-four, in the city of Massillon, in said county, which said lot or block is bounded as follows, to wit: On the north by North street; on the east by High street, on the south by Plum street, and on the west by Cedar street; and that the said Aurelia Banks demands partition of said fourth of said lot numbered one hundred and eighty-four, and that the interest of her, the said Aurelia, may be set off to her in severalty, and in case the same cannot be done without manifest injury to said premises, then that said fourth part of said lot be sold and that such other and further proceedings be had as are authorized by law, and that said petition will be for hearing at the next term of said court, commencing October 17, A. D. 1870. AURELIA BANKS,

By R. H. FOLGER, her atty,

July 20th, 1870-368-6w

The Independent,

Massillon, Ohio,

Is now Seven Years Old, and

"Still Lives."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justice on all the living issues of the day But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

CRAMPS, SPASMS, SOUR STOMACH,
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTRY, COLIC,
WIND IN THE BOWELS;

And all Internal Pains.

Travellers should always carry a bottle of RADWAY'S RELIEF with them A few drops in water will prevent sickness or pains from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

FEVER AND AGUE.

FEVER AND AGUE CURED.
FEVER AND AGUE CURED.
FEVER AND AGUE CURED
BILIOUS FEVER CURED.
SHIP FEVER CURED.
YELLOW FEVER CURED
AND PREVENTED.
AND PREVENTED.

FEVER AND AGUE CURED
FOR FIFTY CENTS

There is not a remedial agent in this world that will cure

FEVER AND AGUE,

And all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by RADWAY'S PILLS), so quick as RADWAY'S READY RELIEF.

RADWAY'S READY RELIEF

has proved infallible, and will cure these terrible fevers quicker, and without entailing the frightful penalties of ENGORGED LIVER, FAT SPLEEN, DISORDERED KIDNEYS, and SAFFRON-COLORED SKIN, that are sure to follow the use of the "Chlorodynes," "Ague Cures," and other agents of the heroic Quinine, Mercurial, Arsenic, and other treatment, where the medicines used *accumulate*, and poison the system.

RADWAY'S READY RELIEF

is the best, cheapest, and safest remedy that can be used for FEVER AND AGUE, BILIOUS, and other Fevers.

NOT ONE

person need suffer, be they ever so much exposed to Fever and Ague, if they will only take RADWAY'S READY RELIEF, and keep their *bowels open with Radway's Pills* Hundreds in the West, who have hitherto been doctoring at the rate of one and two hundred dollars for a few months' treatment, are keeping themselves and families free from FEVER AND AGUE CURE for the country; but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily. *Children* often look *pale* and *sickly* from no other cause than *worms*, and *spasms* are most frequently the result of these hidden sappers and miners.

When they are irritable and feverish, sometimes craving food and eating ravenously, again refusing wholesome diet, tossing restlessly in sleep, moaning and grinding the teeth, then be assured these symptoms are indications of worms.

Uneasiness and pain in the abdomen, with swelling and hardness, are generally attendant upon the presence of these hidden sappers and miners.

A gradual wasting away or emaciation of the flesh is one of the most common attendants upon worms. They absorb the animal juices, and destroy the nourishment imparted to the stomach by wholesome diet, thereby occasioning a variable appetite and a strong desire for indigestible food.

The stomach has, undoubtedly, a very great sympathy with other parts of the body. This is the case with respect to the irritation produced by worms, especially those existing in the stomach itself. They give rise to many other diseases, and patients often suffer incredibly without being aware of the cause.

Many a helpless child has been laid in the grave, when the disease which caused its death has been entirely misunderstood, and when worms have really been the cause. It has been proved beyond cavil that worms exist in the human system from earliest infancy, therefore parents—especially *mothers*, who are more constantly with their children, cannot be too observing of the *first symptoms of worms*, for so surely as they exist, can they be *safely*, and *speedily* removed from the *most delicate infant*, by the timely use of B. A. Fahnestock's Vermifuge.

Physicians do not hesitate to recommend it and use it in their practice, and many of the most eminent of the profession, from all parts of the country, testify to its uniform success. In fact, it **never fails.** It has frequently been given to children as a safe purgative, not suspecting the cause of the illness, and large quantities of worms were discharged and immediate relief afforded.

Great caution must be used by every purchaser, to be his own judge in one sense, and to examine every bottle he buys of it. The simple name of FAHNESTOCK is not sufficient. He must look closely and carefully to see that the initials are **B. A. FAHNESTOCK**, and be satisfied with nothing else.

Sarsaparillian RESOLVENT.

NEW PRINCIPLES OF CURE.

Of all Wasting, Scrofulous, and Eruptive Diseases of the Eyes, Nose, Mouth, Throat, Ears, Head, LUNGS, Kidneys, Bladder.

THE SKIN MADE PURE, CLEAR, SMOOTH, AND BEAUTIFUL!

DR. RADWAY'S SARSAPARILLIAN RESOLVENT Establishes a new principle of Cure of all Chronic diseases; and proves to the world that Consumption and other Scrofulous diseases are curable. This fact has been demonstrated in over

ONE HUNDRED CASES OF CONFIRMED CONSUMPTION

where one Lung in over seventy cases was destroyed and dried up, and in over

500 CASES OF SUSPECTED CONSUMPTION.

DR. RADWAY, three years since, published to the world his analysis of the blood in the several stages of CONSUMPTION, showing in every stage, that where tubercles become deposited in the Lungs and other organs, as in the Kidneys, Liver, Spleen, Bronchial Glands, Intestines, establishing Consumption of these organs, the BLOOD is thin, weak, pale, watery, and is deficient of such constituents as fibrin Albumen, Phosphorus, and the rich red coloring dises of the Blood Corpuscles. The absence of these constituents in the Blood, the Blood is exhausted of strength and nourishment, and wherever there is inflammation it deposits tubercles and decomposition, it has not the power to hold in solution its natural constituents, and Ulcers Sores, Tumors, Cancers, and Virulent Humors are formed, the presence of which causes inflammation, gathering, and consequent suppuration.

This, reader, is the true cause of the formation of Tubercles and Consumption. Dr. RADWAY was the first to advance this theory of the cause of Consumption and its kindred diseases, and prepared the RADWAY'S RESOLVENT to supply the Blood with such constituents it was deficient of, in these conditions of system, and to give it the nourishment and strength to hold its natural constituents in solution. Dr. RADWAY'S theory was published in England, France, Germany, and America, and was seized upon by the scientific men of both hemispheres. From his text medical books have been published by medical writers claiming to have discovered the cause of Consumption, but have *failed* to produce the remedy to cure. Dr. RADWAY was the first to advance this theory, and the first and only discoverer of a medicine *that will cure.* In RADWAY'S SARSAPARILLIAN RESOLVENT the public have a remedial agent that will cure Consumption and all diseases of the LUNGS, BRONCHIAL, KIDNEYS, BLADDER, WOMB, THROAT, GLANDS, AND URINARY ORGANS.

In all Wasting Discharges, such as Involuntary Loss of Sperm, Emissions, Weakness of the Genital Glands, Leuchorrhea, and all Uterine difficulties, Gravel, Lime Stone, Brickdust, Uric Acid, and Calculous Concretions, the SARSAPARILLIAN RESOLVENT is a positive cure. In Dropsy, Diabetes, Tumored Venereal, Syphilis in its many forms, it cures when all other medicines fail.

EVERY DAY

a increase of flesh, weight, and strength is experienced. It is Tat-tissue, Caloric or Heat making. It is to the blood what oxygen is to the atmospheric air, it supplies the life principle. It swiftly removes from the surface all Spots, Blemishes, Pustules, Tetters, Rash, Flesh Worms, Sores, &c., imparting a

CLEAR AND BEAUTIFUL COMPLEXION

to all.

CERTIFICATE OF BEAUTY.

The following letter is from a highly-gifted lady, well known in the "circles of our best society:"

"LAFAYETTE, Feb. 23, 1869.

"I had not much confidence in your SARSAPARILLIAN RESOLVENT. Having been disfigured for the last four months with BLOTCHES and PIMPLES, I received, as all events, to try it, and took TWO TEASPOONSFUL three times a day, as directed. It is not quite ONE MONTH since I commenced its use. To-day there is not a BLOTCH, spot, blemish, or defection of any kind on my person. * * * *

B. A. FAHNESTOCK'S VERMIFUGE.

If is now over forty years since this medicine was offered as a remedy for Worms, and from that time its reputation has steadily increased until at the present day it is almost universally acknowledged throughout nearly all parts of the world to be the *sovereign remedy.* Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country; but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily. *Children* often look *pale* and *sickly* from no other cause than *worms*, and *spasms* are most frequently the result of these hidden sappers and miners.

When they are irritable and feverish, sometimes craving food and eating ravenously, again refusing wholesome diet, tossing restlessly in sleep, moaning and grinding the teeth, then be assured these symptoms are indications of worms.

Uneasiness and pain in the abdomen, with swelling and hardness, are generally attendant upon the presence of these hidden sappers and miners.

A gradual wasting away or emaciation of the flesh is one of the most common attendants upon worms. They absorb the animal juices, and destroy the nourishment imparted to the stomach by wholesome diet, thereby occasioning a variable appetite and a strong desire for indigestible food.

The stomach has, undoubtedly, a very great sympathy with other parts of the body. This is the case with respect to the irritation produced by worms, especially those existing in the stomach itself. They give rise to many other diseases, and patients often suffer incredibly without being aware of the cause.

Many a helpless child has been laid in the grave, when the disease which caused its death has been entirely misunderstood, and when worms have really been the cause. It has been proved beyond cavil that worms exist in the human system from earliest infancy, therefore parents—especially *mothers*, who are more constantly with their children, cannot be too observing of the *first symptoms of worms*, for so surely as they exist, can they be *safely*, and *speedily* removed from the *most delicate infant*, by the timely use of B. A. Fahnestock's Vermifuge.

Physicians do not hesitate to recommend it and use it in their practice, and many of the most eminent of the profession, from all parts of the country, testify to its uniform success. In fact, it **never fails.** It has frequently been given to children as a safe purgative, not suspecting the cause of the illness, and large quantities of worms were discharged and immediate relief afforded.

Great caution must be used by every purchaser, to be his own judge in one sense, and to examine every bottle he buys of it. The simple name of FAHNESTOCK is not sufficient. He must look closely and carefully to see that the initials are **B. A. FAHNESTOCK**, and be satisfied with nothing else.

DYSPEPSIA.

THE

Medical Properties Possessed by

BELTZHOOVER'S

Dyspeptic Bitters

Are fully attested by the certificates of well known gentlemen who have tested their virtues. Dyspepsia, Liver Complaint, Ague, General debility, and similar diseases are totally eradicated from the system by their use, while as a blood purifier and appetizer, they are unapproachable.

Doctor S. Beltzhoover, the sole proprietor of these bitters, are manufacturing them extensively at their establishment, No. 77 Third avenue, Pittsburgh, and are prepared to fill all orders that may be sent to them.

At this season of the year the human system is generally in a debilitated condition and a tonic is necessary for the presevation of health. The Dyspeptic bitters are strongly recommended for their tonical virtues, and many persons are deriving great benefit from their use. These bitters are the best in the market, and are being generally adopted by our citizens.

And for sale at wholesale by **Harris & Ewing**, Druggists, No. 341, Liberty street Pittsburgh, Pa.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

RESTORES GRAY HAIR TO ITS ORIGINAL COLOR, PROMOTES ITS GROWTH, AND IS A SPLENDID DRESSING. TRY ONE BOTTLE AND THICKEN UP THE THIN LOCKS!

Is the only perfected and scientifically prepared preparation of its kind ever offered to the public, and has no competitor in *merit*. By its use GRAY HAIR is soon restored to its original youthful color and brilliancy, which is so much admired by all. Persons whose hair is thin or falling out will, by the use of our Renewer, soon see its good effects, as, by its *tonic* and stimulating properties the hair glands will be incited and the hair grow thick and strong again. In cases of *Baldness* it will create a new growth unless the follicles are destroyed. It is cooling, and allays all itching and irritation of the scalp. It does not stain the skin as do dyes, but makes the scalp white and clean. As a DRESSING it is the best and most economical preparation in the world, as its effects last so much longer. Send for our Treatise on the hair, free to all, by mail.

Sold by all Druggists and Dealers in Medicine.

C. F. GALTON'S

DYSPEPSIA REMEDY.

In offering this remedy to the public, we feel confident that every statement we make in regard to its curative properties will be fully verified by all who avail themselves of it. The prescription has been used in this city nearly ten years, and has never failed to effect a permanent cure whenever used in accordance with the directions, and the patient has had sufficient strength of mind to abstain from rich and indigestible food for a short time. In case of *Heartburn, Waterbrash, Constipation*, and *Nervous Headache*, arising from imperfect digestion, and all ailments which are produced from an abuse of that important organ, the stomach, it will afford permanent relief.

As an evidence that our statements can be fully relied upon, we refer the reader to the certificates below:

"For a number of years I was greatly afflicted with Dyspepsia, and although my stomach craved food, it would immediately reject it, should I eat anything, no matter how small the quantity. I was frequently compelled to leave the table without being able to take any nourishment. In a short time I became very much reduced in flesh, and was so weak that I was unable and unfit to attend to my business. My mind was in no better condition than my body, as I was continually oppressed with lassitude and depression of spirits. I tried all the patent medicines and prescriptions that I heard of, and some of these afforded me temporary relief, but in a short time I relapsed into my former condition.

"While suffering in this manner I heard of C. F. Galton's Dyspepsia Remedy, and concluded to try it. I had taken it but a short time when I began to feel relief, and continuing to take it, I soon could partake of my meals without any disagreeable feeling either while at the table or afterwards, and gained flesh rapidly. It is now nearly ten years since, and I have continued free from anything like a return of the Dyspepsia—I can therefore recommend it to any one suffering in like manner.

"Respectfully yours, ANDREW J. NICHOLSON.
"PITTSBURGH, March 20, 1869."

"This is to certify, that during the early part of the summer of 1868 my wife was much troubled with Dyspepsia. She had a severe pain in her side, her appetite was variable, and she became quite sallow. After having used two bottles of C. F. Galton's Dyspepsia Remedy, her appetite became good, she was relieved from the severe pain in her side, and her complexion became good again, all of which I attribute to the use of C. F. Galton's Dyspepsia Remedy, and I have recommended it to all my friends and acquaintances. All that I can do to make its wonderful properties known, you can rest assured will be done. JAMES A. SMITH.
"PITTSBURGH, PA."

If you are suffering do not hesitate to buy a bottle of *C. F. Galton's Dyspepsia Remedy*, and avail yourself of its curative properties.

Good teams and carriages always in readiness

DR. WHITTIER

Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhea or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmaniness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases, and treats thousands of cases every year must acquire a greater skill in that specialty than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages, that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

Hours 9 a. m. to 8 p. m. Sundays 12 m. to 2 p. m. Office, No. 9 Wylie street, (near the court house,) Pittsburg, Pa. 865-1y

MRS. ALLEN'S

Hair Restorer & Zylobalsamum

Are so uniformly grateful and beneficial, that they are with justice called the natural strengtheners of the human hair. They are two entirely separate and distinct preparations, not to be used together at one time.

Mrs. Allen's Hair Restorer

Never fails to satisfy the most refined and cultivated. A guarantee goes with every bottle, that it will quickly restore gray or white hair to its original youthful beauty, gloss and color; after its use a few times the hair will grow thicker and stronger. It will stop its falling and induce a healthy and luxuriant growth. It is an exquisite hair dressing, agreeable, harmless and healthy. Entirely different from most other preparations for the hair, its composition and ingredients are nourishing, giving life and vigor to the Roots.

Mrs. Allen's Zylobalsamum

This exquisite preparation is free from any sediment, and is a toilet treasure. The urgent want of a simple Hair Dressing, for the youth of both sexes, first induced the manufacture of the Zylobalsamum, and the sale of it is perfectly immense, not only in this country, but in Europe.

EXTRACTS FROM A FEW LETTERS.

"Your Zylobalsamum is used by every member, young and old, of our family, and we consider it invaluable. Should any gray hairs appear, we shall try your Hair Restorer, which we hear very highly spoken of."

"Father and mother use your Hair Restorer, and are delighted with it. It soon restored their gray locks to their youthful color, but daughters and son still find in the Zylobalsamum all their hair requires."

From the Principal of one of our large Female Seminaries: "Your Zylobalsamum has been used for many years by myself and family, and is the favorite among our young ladies."

Sold by all Druggists. Wholesale Depot, S. R. VAN DUZER & CO., 35 Barclay St. and 40 Park Place, New-York.

DR. PIERCE'S ALT. EXT. OR GOLDEN MEDICAL DISCOVERY

This is the most thorough blood purifier yet discovered, and cures all humors from the worst scrofula to a common eruption. Pimples and blotches on the face, and a scaly or rough skin, which are such annoying blemishes to many young persons, yield to the use of a few bottles of this wonderful medicine. From one to eight bottles cures salt rheum, erysipelas, scald head, ring worms, boils, scaly eruptions of the skin, scrofula sores, ulcers, and canker in the mouth and stomach. It is a pure medicinal extract of native roots and plants, combining in harmony nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick. It is a great restorer for the strength and vigor of the system. Those who are languid, sleepless, have nervous apprehensions or fears, or any of the affections symptomatic of weakness, will find convincing evidence of its restorative power upon trial. If you feel dull, drowsy, debilitated and despondent, have frequent headache, mouth tastes badly in the morning, irregular appetite and tongue coated, you are suffering from torpid liver or biliousness. In many cases of liver complaint only a part of these symptoms are experienced. As a remedy for all such cases Dr. Pierce's Golden Medical Discovery has no equal as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of habitual constipation of the bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise. In bronchial, throat and lung diseases, it has produced many truly remarkable cures, where other medicines had failed. Sold by druggists at $1 per bottle. Prepared at the Chemical Laboratory of R. V. PIERCE, M. D. Buffalo, N. Y. 63-3m
